

FOR IMMEDIATE RELEASE

JOHO ANNOUNCES STRATEGIC RELATIONSHIP WITH FIRST SAVINGS BANK

West Fargo, ND: September 6, 2018 – JOHO, LLC (www.johod3.com), a premier provider of Enterprise Reporting and Analytics software, is excited to announce that **First Savings Bank** (Clarksville, IN) (the “Bank”) has selected JOHO OneSource™ for the purpose of enhancing management’s ability to quickly access pertinent, reliable data and produce timely, actionable reports.

The implementation begins with JOHO AYR™ (Are You Ready?), a consultative process producing a business intelligence assessment. This will allow the Bank’s management team to define how the JOHO OneSource™ solution will provide the Bank’s employees with access to all relevant data on-demand. Within this first phase of implementation, the Bank plans to address its need for streamlining financial reporting, which has become more complex due to its continued growth. This phase is intended to reorganize how certain financial and regulatory data is sourced, consolidated, and presented for efficient reporting.

Phase two of JOHO OneSource™ will quickly follow and will focus on enhancing the Bank’s ability to track and trend key performance indicators. This will include supplying accelerated on-demand access to critical data and information in order for the Bank to better manage operational strategies, increase efficiencies, identify customer service opportunities, and deliver service more immediately.

The Bank utilizes Finastra’s Phoenix EFE core operating system and FMS general ledger, plus an array of additional processing and reporting platforms. According to Tony Schoen, the Bank’s Chief Financial Officer, “the JOHO OneSource™ solution’s ability to access, aggregate, and present data across all platforms will significantly improve our monitoring and reporting capabilities. We expect this to enhance our processes, provide for both revenue and expense related efficiencies, and permit us to better manage our rapidly expanding organization.”

“First Savings Bank presented us with an opportunity to solve the Bank’s immediate tactical challenges with a long-term strategic platform. Our team is able to design a solution that will scale along with the Bank and provide efficiencies across its entire organization. It will empower the Bank’s team with powerful insights to information from their diverse internal and external data sources. We are confident that there will be measurable results reflecting revenue growth, expense reduction, and improved productivity throughout their enterprise.” said Jim Rohde, Founder & CEO, JOHO.
